MEMORANDUM FOR THE RECORD

SUBJECT: Concurrence in Amendment No. 7 to Contract No. SP-1916 with Lockheed Aircraft Corporation, Burbank California Garfish 2 Project Air Force.

1. This memorandum contains a recommendation submitted for concurrence of the undersigned. Such recommendation is contained in Paragraph 6.
2. Contract No. SP-1916 covers the FOG requirements for certain models, contribution to the Thermos program and a supplementary IR Program.
3. This Amendment No. 7 covers additional items in conjunction with the IR work. It also provides for price redetermination in June or July 1959 of all items of the contract except the field support for the period 1 March 1959 to 29 February 1960. The field support will be redetermined at a later date.
4. Amendment No. 7 obligates an additional \$222,370.00 chargeable during FY1959 against "No Year" Air Force money. This increase results in a total consideration of \$814,547.08. By concurrence to this memorandum the Comptroller signifies that sufficient funds are available for this obligation.
5. Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all 8(b) expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress, for each contract.
